PROFILE

Motivated Computer Science student at Taraba State University, Jalingo, building a strong foundation in web development. Comfortable creating responsive web pages with HTML and CSS and currently developing JavaScript skills. Interested in practical projects, continuous learning, and growing into a professional software and IT career.

EDUCATION

Taraba State University, Jalingo

B.Sc. Computer Science • Student

Computer Science

Currently studying

TECHNICAL SKILLS

- **HTML** — Web page structure and semantic markup
- **CSS** — Responsive layouts, styling and visual design
- **JavaScript** — Currently learning

PROJECT

LinkUp — Romantic Web Experience

A personal interactive web project designed as a shareable romantic experience. Built while developing front-end web development skills, using HTML, CSS and JavaScript.

Live project: <https://abduL-sky.github.io/link/>

LEARNING JOURNEY

Currently progressing from HTML and CSS into JavaScript, with a focus on building more interactive and dynamic websites. Open to learning opportunities, practical projects, and experiences that strengthen web development skills.

CAREER OBJECTIVE

To develop into a skilled software and IT professional through hands-on projects, continuous technical learning, and opportunities to apply Computer Science knowledge in real-world environments.
